fig. 3

fig. 4

fig. 5

fig. 6

Step 1: Prepare the four metal clips and locate the four corners of the All Purpose Ventilator Fan housing (fig. 1)

Step 4: The prongs on the metal clips should be facing upwards (fig. 4)

Step 2: Slide the metal clips down in to the corner brackets as shown (fig. 2)

Step 5: Place the metal fan guard over the prongs (fig. 5)

Step 3: Firmly Press down the metal clips until secure (fig. 3)

Step 6: Press the metal fan guard in place until secure (fig. 6)
